

Futures Page, Switcher-Lens Re-tag

Audience: traders coming off **Topstep / Apex / other futures firms** | solution-aware switchers, not beginners |
June 1, 2026

The big structural moves

1. **Collapse the agitation block.** Old sections 3-4-5 (micros / capital gap / time tax) target beginners. Compress into one short **switcher-pain** section about the firm they're leaving (rules changed after passing, sim-only ceiling, payout friction).
2. **Promote the comparison cluster.** Positioning (7), T3 live capital (13), and What Separates (17) are the heavy lifters for a shopper. Pull them toward the top.
3. **Lead with the one thing competitors can't claim:** a real path to live capital at T3 Global.
4. **Remove switching friction:** say plainly that NinjaTrader & Tradovate are the same tools they already use.

MOVE UP

REFRAME

CUT / SHRINK

Section-by-section re-tag

#	Section	Call	Why, for a switcher
0 1	Hero	KEEP +	Anchor (\$100K / \$129) is right. Add a switch hook and the 'Switching from another firm?' CTA so a Topstep/Apex trader sees themselves in line one.
0 2	Proof ticker	KEEP	Fast credibility, works for any audience. Could add a 'switch in minutes' proof point.
0 3	The Truth (micros)	REFRAME	Beginner small-account pain. A switcher solved this a year ago. Repurpose this slot into the switcher's real pain: the firm they're with now.
0 4	Capital Gap	CUT / SHRINK	Pure problem-aware reframe (skill vs capital). A switcher already bought into capital-as-solution. Fold a one-liner into the hero at most.
0 5	Time Tax	CUT / SHRINK	'Skip the multi-year grind' + dropout stats speak to beginners grinding a \$5K account. Not a switcher's situation.
0 6	Downside, Capped	REFRAME	'\$129 vs your savings' is a beginner reframe. Switchers already trade capped. Re-angle to cost/value vs competitor eval pricing, or trim.
0 7	Audience / Positioning	MOVE UP	This is THE switcher section (them vs us). Promote to right under the hero and name the specific competitor failure modes.
0 8	How It Works	KEEP (condense)	Switchers know the general flow. Keep it, but tighten, they don't need it spelled out.
0 9	Programs	MOVE UP	Switchers comparison-shop on price and rules. Make pricing reachable earlier.

#	Section	Call	Why, for a switcher
10	The Big 5	KEEP	Direct comparison content, exactly what a shopper wants. Keep; could add an implicit vs-competitor column.
11	FAQ	REFRAME	Add switcher questions: 'How is this different from Topstep/Apex?', 'Do the rules change after I pass?', 'Can I keep my platform?'
12	Business Model	KEEP	Transparency reassures switchers who've been burned. Keep.
13	T3 Partner	MOVE UP	The #1 thing competitors can't say: a real path to live capital. Currently buried at 13, should be near the top and louder.
14	Reviews	KEEP	Proof. Ideally surface reviews about payouts / switching.
15	Platforms	KEEP +	NinjaTrader & Tradovate = the tools they already use. Add the 'zero relearning, switch with no friction' angle.
16	Who It's For	KEEP	Qualifies the buyer. Fine where it is, lower priority.
17	What Separates Us	MOVE UP	Rules locked / real graduation / real support directly answer 'why leave my firm.' Pull up, or merge with Positioning.
18	Final CTA	KEEP +	The close. Add a switch-specific reassurance line.
19	Footer	KEEP	Structural, legal disclosures and nav.

Proposed switcher-first running order

A first cut at resequencing the same content for a shopper who already knows the category and is comparing you to the firm they're on now.

#	Section	Note
1	Hero	anchor + switch hook
2	Positioning: them vs us	moved up from 7, amplified with named competitor failure modes
3	Real live capital at T3	moved up from 13, the killer differentiator
4	What separates us	moved up from 17: rules locked / graduation / support
5	Switcher pain	reframed 3, collapsing old 3-4-5: 'you got funded, then the firm moved the goalposts'
6	How it works	condensed
7	Programs + pricing	moved up from 9
8	The Big 5	Growth vs Express
9	Platforms	the tools you already use, no relearning
10	FAQ	with switcher questions added
11	Business model	transparency
12	Reviews	proof
13	Who it's for	qualify
14	Final CTA	close with switch reassurance

This is a strategy map, not a rebuild. Nothing on the live page has changed. Use it to drive the section-by-section review; we decide each call together before editing.
